About Us

SANWALIYA RSE SYSTEMS PRIVATE LTD, focusing on delivering solutions through a combination of onsite and offsite centers in order to provide maximum value for money to our customers. We are engaged in developing & managing software programs & project management including functional modifications, adaptation correction, user support, testing modification & documentation. Its aim is to provide computerized services by developing software solutions catering to the needs of various business houses, service providers, institutions & government departments.

Our core area of interest lies in providing Information technology advisory, consultancy, and development & implementation services. We have expertise in providing **Web Hosting, Domain Name Registration, Bulk SMS & Payment Gateway Integration, Biometric Solution, Website Designing, Software Development, Networking, Geographic Information System and E-commerce solution** in both Public & Private sectors.

We manage projects from pre-implementation stages to post-implementation stages. We undertake software need evaluation, project management analysis, customization, design, development, testing & implementation of application of software.

Another customer-oriented approach took us to UPDESCO, UPTRON and NICSI (NEW DELHI), an apex consumers' c body, sponsored by Govt. of India AND UP to obviate the need to go through the tedious process of inviting tenders by placing orders directly on them by a single tender. All the said IT & Office Automation products and consumables are available through UPDESCO, UPTRON, and NICSI (NEW DELHI) with which we are registered for supplying computers and computer peripherals.

Customer-orientation

To provide the best of the products available in the industry to its customers and to cut down the costs due to the existence of intermediaries, **SANWALIYA RSE SYSTEMS PRIVATE LIMITED** has adopted customer-oriented tie-ups with **IT** giants like **ACER, IBM, HCL, HP, CISCO, D-LINK, POLYCOM, SAMSUNG, WIPRO, COMPAQ, and MICROSOFT** for selling their products in the Indian markets during the last couple of years. Recently **SANWALIYA RSE SYSTEMS PRIVATE LIMITED** has entered into a tie-up with **TVS /CANON, EPSON** and **SHARP** for selling their IT & Office automation products. **ACER, IBM** and **HCL** have appointed

SANWALIYA RSE SYSTEMS PRIVATE LIMITED as their Business Partner/Service Provider for their products in addition to being authorized reseller.

Corporate Philosophy

Being aware of the saying – “An organization is only as good as its people”, we at **SANWALIYA RSE SYSTEMS PRIVATE LIMITED**, have developed a team consisting of professionals who are highly qualified, have vast working experience in IT industry and who have graduated from prestigious institutes like **IITs, RECs** and premium management institutes.

Organizational Setup

The Director, Mr. Kanwaljeet Singh, a technocrat with vast working experience in IT industry and a man with vision and experience in man management heads SANWALIYA RSE SYSTEMS PRIVATE LIMITED.

The present total manpower of the organization present is 45. We have a Vice President who looks after the business development & coordinates various activities in the organization. There are seven marketing/sales executives who are headed by the Manager Marketing. This team covers the entire northern region including the city of Delhi.

Maintenance Management

A team of qualified engineers headed by the **Maintenance Manager** takes care of “after-sales-support” and the “**third party maintenance of mini/micro computers**”. The team is competent enough to handle different products on various platforms like **DOS/Networking/UNIX/Win 95, 98/ Win NT/ORACLE** etc.

Major IT Projects Undertaken:

- 1. Directorate of Economics and Statistics:** *Modernization of Statistical Information Systems. This involved setting up state of art data center and developing a web based application/portal Statistical Information Systems (SIS) to be accessed online via internet and intranet. The SIS application used business intelligence software IBM Congas and IBM SPSS Modeler to perform the various statistical analysis, data transformation and Ad hoc report generation.*
- 2. State Services Delivery Gateway Project –U.P. (SSDG):** *The project of the Govt. of India to make all Government services accessible to the common man in his locality, through common service delivery outlets and ensure efficiency, transparency & reliability of such services at affordable costs to realize the basic needs of the common man. This required the need to cooperate, collaborate and integrate information across different departments of the state government. This involved setting up a SSDG Data Centre at NIC, Lucknow and installation of IT Hardware at various offices of the State Government in each district of U.P. and establishing Wi-Max connectivity with UPSWAN.*
- 3. Land Records – U.P.:** *The ambitious project of the Government of U.P. to digitize land records (Khasra/khtauni) at each tehsil office all across the state and make this data available online. The project involved setting up of IT Hardware viz. Desktop PCs, Servers, Printers, UPS etc. The application for the same was developed by NIC.*
- 4. Sarva Siksha Abhiyan –U.P.:** *Computerization of 2850 basic education schools all across the state. The project involved supply, installation and maintenance of desktop computers, printers and UPS.*
- 5. Rohilkhand University:** *Establishment of CAMPUS WIDE LAN and Computer Centre at MJP Rohilkhand University. This involved fiber connectivity between various buildings and departments with 3 tier connectivity. Installation of core access and edge switches. Installation of Wireless LAN to connect the moveable devices.*
